

Freight-Mate

Quick Detach In Truck Hydraulic Lift

The **Freight-Mate** is designed to load and unload racks or pallets weighing up to 2500 pounds, from truck bed to ground level with the push of a button. This uniquely designed lift has forks, which fold up allowing room to load and unload trucks with forklift or racks from a standard truck dock.

FEATURES

- Can be installed or removed in minutes.
- Self contained hydraulic system.
- Push button control for lift and swing.
- Requires less maintenance.
- Not exposed to elements of the road.
- Uses only the space of one pallet.
- Can be used with swing or overhead doors.
- Adjustable forks.
- Gas powered or 12 volt hydraulic system.

With the new **Freight-Mate** anyone can have the time and money-saving advantage of a hydraulic lift, even with short-term leased trucks.
